

BIG DECATUR FIRE
RAGED ALL NIGHTTHE LOSS WILL AGGREGATE
ABOUT \$300,000.

The Blaze Started in Powers' Opera House and Swept an Entire Block Away Before It Was Controlled—Valuable Aid Rendered by Springfield—List of Burned Buildings.

Decatur, Ill., Nov. 5.—Fire broke out in the Powers Grand opera house at 6:30 last night. After destroying the opera house, it extended to adjoining buildings and an entire block in the business center of the city was destroyed. The loss is estimated at \$300,000, only partially covered by insurance.

The danger was so great and the fire so apparently beyond local control that at 9:30 the mayor telegraphed to Mayor Woodruff of Springfield for assistance, which was promptly furnished. The buildings burned are: Powers Grand opera house, C. W. Uteley's tailor store, H. E. Whiteley's drug store, Harry Fisk's furniture store, Columbia Manufacturing company, Linn & Schrug's \$200,000 dry goods store, Milliken bank.

The fire broke out at 6:30 o'clock in the Powers Grand opera house, which was built and furnished in 1889, at a cost of \$100,000, the flames starting in the basement under the stage. The firemen were unable to fight the flames successfully, as the fire had extended through the first floor and almost to the roof before the alarm was turned in. The house was destroyed, the loss being fully \$75,000, with an insurance of \$20,000. The fire at 10 o'clock communicated with the north half of the Powers block, north of the opera house, getting through by way of the basement under the Milliken bank. It rapidly got beyond control, destroying the bank, the Columbia Manufacturing company's plant, the two rooms occupied by Harry Fisk's furniture stock, and the Linn & Schrug's corner. Much of the dry goods property was removed by the aid of hundreds of people.

The Knights of Pythias, the Modern Woodmen, the Rathbone Sisters, and the Princes of the Orient property was saved. The Powers block, fronting on Water street, was saved, the wind being favorable. Orlando Powers owns the entire block and the loss on the buildings will fall wholly on him. He is worth over \$1,000,000. He carried no insurance excepting the \$20,000 on the opera house. The loss is placed at \$400,000 to \$500,000. Fisk carried \$4,000 insurance on a \$6,000 stock. There was danger of the block north taking fire several times during the conflagration. At a late hour the losses and insurance were estimated as follows:

Orlando Powers, opera house, \$80,000; insurance, \$20,000.
C. W. Uteley, tailor, \$15,000; insurance, \$3,000.
H. E. Whiteley, loss, \$30,000; insurance, \$4,250.
Fisk's furniture store; loss, \$5,000; insurance, \$8,000.
Linn & Schrug's; stock valued at \$190,000; insurance, \$102,500.
Milliken bank building, a seven-story structure; completely gone.
Keck & Weigand's cigar store.
Durfee's implement house.
Macon County Abstract and Title Company.
People's Loan association.
Dr. T. S. Hoskins, dentist.
Columbia Clothing Manufacturing Company.

Orlando Powers owned the entire block of buildings. His loss on the business buildings is \$25,000 or more and his insurance \$16,000.

At 4:15 the fire broke out afresh in St. Nicholas hotel, but was confined to the servants' quarters. The hotel loss is small. No excitement existed among the guests, and no fatalities are reported from any part of the city.

Indiana Town Threatened by Fire. Valparaiso, Ind., Nov. 5.—The villages of Hamlet and Davis, two stations on the Fort Wayne road, are threatened with destruction. The Kan-kakee marsh, which lies two miles south of these villages, is on fire. Since 4 o'clock yesterday afternoon the citizens have been fighting to keep the fire from spreading, and they notified the officials of the Pennsylvania road, who at once ordered all the section men and every man they could secure from this city to Plymouth to assist in protecting the property. All west bound passengers were late from one to two hours last night at this station. Already thousands of dollars' worth of property have been destroyed.

Fire Sweeps an Illinois Village. Anchor, Ill., Nov. 5.—Fire broke out at 3 p. m. yesterday in Kaler Brothers' meat market and swept practically the entire business portion of this place. A stiff breeze was blowing and the flames were at once beyond control. After sweeping away the business buildings the fire spread into the adjacent meadows and corn fields. There was scarcely a bucketful of water available in the town, the wells and cisterns being empty, owing to the long drouth. The total loss is about \$30,000, with insurance of one-half.

Iowa Peat Beds on Fire. Eldora, Iowa, Nov. 5.—Over one hundred acres of land north of Eldora, in Wright county, on the Ellisworth farm, is literally burning up and red-hot with fire. The land is of a peaty nature, and sparks from a passing locomotive set fire to some hay stacks on the ground, which ignited the peat. It has burned for a number of days, and fire is down to the depth of four feet. Rain only can stop it.

A GREAT STRIKE
MAY BE ORDEREDGREAT NORTHERN EMPLOYEES
DISSATISFIED.

A Director of the A. R. U. Talks of the Threatened Movement and the Causes That Led to It—Roads Are Combining Against Labor, He Says—Situation Along the Line.

Chicago, Nov. 5.—Officials of the American Railway Union do not hesitate to make plain intimation that a new railroad strike may be precipitated involving the lines running out of Chicago. William E. Burns, one of the directors of the A. R. U., said: "The grievances of the men on the Great Northern are numerous and include the discharge of men without cause and a reduction of wages. We feel there is a concentrated movement among railroad managers to wipe out organized labor. The committee of the board of mediation was refused an audience by President Hill and General Manager Warren of the Great Northern. This committee represented thirty-six local unions of the A. R. U. After their failure to secure a hearing the questions in controversy were referred back to the men for individual action. I have not heard what, if anything, has been done to-day, but I am satisfied there will be a strike unless Hill recedes and treats with the men. All employees of the Great Northern belong to the A. R. U. We want to prevent a strike, but my advice is the men do not want to work under existing conditions."

Asked if a strike would be ordered in Chicago in case one occurred on the Great Northern Mr. Burns said: "It is expected that the members of the railway union will stand together. The strike may come on the Great Northern and be settled within its limits. But if that is impossible such action as the conditions from time to time demand will be taken. The railroads want to crush out organized labor, so that in the event of a lack of freight receipts they will be enabled to reduce wages to pay the interest on watered stock—or, in other words, rob American labor for the benefit of English bondholders. A great many railway employees are native-born and appreciate the situation. I don't know where the controversy will end."

Sugar Bounty Test Cases.

New Orleans, La., Nov. 5.—Yesterday afternoon two suits were filed in the United States Circuit court as test cases to settle the matter of the two bounty appropriations of \$238,000 and \$5,000,000, which were knocked out by the adverse decision of Controller Bowler some time ago. The department at Washington has given every assurance of assistance in pushing the cases, and it is hoped that the cases will be in the hands of the Supreme Court of the United States early in December. Among counsel engaged are Joseph H. Choate of New York and ex-Senator Charles F. Manderson of Nebraska.

Riot Caused by an A. P. A. Parade.

Gloucester, Mass., Nov. 5.—While a parade held under the auspices of the A. P. A. last night was being formed stones and heavy missiles were thrown and two persons were seriously injured. The parade preceded a lecture on "Immigration," delivered in the city hall by Rev. Scott F. Hershey, D. D., pastor of the Columbus Avenue Presbyterian church of Boston. Six hundred members and sympathizers of the American Protective association were in line, and thousands of people crowded the streets. A large detail of police was on duty, as trouble was anticipated, but was unable to prevent the disturbance.

Spring Valley Riot Cases.

Princeton, Ill., Nov. 5.—The side of the defense in the case of the thirteen Spring Valley men on trial for driving out the colored people was taken up yesterday. Six witnesses were examined, and their evidence was in the nature of an alibi for four of the defendants. They stated that each of the four was at his home during the entire day of the riot. They had heard the ringing of the fire bell, the playing of the band, and the shouting, but did not wish to be identified with the mob. The witnesses were Italians, and their evidence was taken through an interpreter.

French Ministerial Declaration.

Paris, Nov. 5.—The ministerial declaration of policy was read in the Chamber of Deputies yesterday. It promises further inquiry into and the publication of the fullest information obtainable regarding the Southern Railway scandal. The measures to be introduced by the new government include an income tax bill and a bill to prohibit members of the Legislature from becoming directors of financial or commercial undertakings having any transactions with the government.

Hinshaw Not Yet Sentenced.

Danville, Ind., Nov. 5.—Contrary to expectations, Rev. W. E. Hinshaw, convicted of the murder of his wife, was not sentenced to prison for life by Judge Hadley yesterday, but will be sentenced later in the week. The motion for a new trial was overruled and the case will be appealed to the Supreme court. There was much excitement in Danville, and the courtroom was packed when Judge Hadley read his decision. Hinshaw said he would make a speech from the courthouse steps on the day sentence is pronounced. It will probably create a sensation.

Rebellion Is Spreading.

St. Petersburg, Nov. 5.—The rebellion of the Dungs in the northwest portion of China is extending seriously, and now embraces the whole of the province of Kansu. The Chinese government has dispatched all the troops of the garrison of Kashgar to the scene of the uprising, and has appointed Li Hung Chang, imperial commissioner extraordinary, to direct measures to suppress the rebellion.

Eugene Field Dead.

Chicago, Nov. 5.—Eugene Field, the famous writer, died of heart disease early yesterday at his home, 1033 Evanston avenue. A widow and 5 children survive him. Mr. Field's death was wholly unexpected, he having been in the best of health for the past few months.

MURDERED A CHILD
IN AN OUTBUILDINGHORRIBLE CRIME REPORTED
FROM OMAHA.

The Mutilated Body of Eleven-Year-Old Ida Gaskin Found in a Shed in the Business Portion of the City—Three Men Under Arrest Charged With the Shocking Offense.

Omaha, Neb., Nov. 5.—Ida Gaskin's mutilated body was found in a small outbuilding in the rear of 1807 1/2 Howard street, in the business district of Omaha, at 2 o'clock yesterday. She had been assaulted and murdered. Within an hour George Morgan, Ed Sanford and Henry Booker, all young men, were in custody charged with the crime.

Ida Gaskin was 11 years old. Her mother, a widow, lives on the third floor of a tenement house at 1814 Howard street. Ida was missed from her home early in the evening. Her mother searched for her but failed to find any trace of the missing girl. At about 11 o'clock she reported to the police station that her daughter had disappeared.

When the police search developed the murder, three hours later, a rigorous investigation led to the arrest of Booker on suspicion. While all were out of the room save Mrs. Gaskin, her little son and a reporter the little boy remarked: "I know who killed Ida." On being questioned he said that during the afternoon "George and Ed sent me upstairs to tell Ida they wanted her." The reporter learned that "George and Ed" were Morgan and Sanford and that they occupied rooms on the floor below. Hurdly calling an officer, the pair were arrested. At the station most damning evidence was found on Morgan's person. Neither he nor Sanford were undressed when arrested. On Morgan's under-clothing fresh bloodstains were found and he refuses to say a word. Both men are nervous.

The little girl was choked to death, her throat showing plainly where the cruel fingers had left their imprint. Booker is a driver of a coal wagon and a friend of the Gaskin family. Morgan is a collarmaker by trade but has been out of employment for some time. Sanford works for the Crane Elevator company. It is the opinion of the police that the case is conclusive against Morgan. He was the last man seen with her. So great was the feeling against the prisoner that he was hurriedly removed to the penitentiary at noon. Later a committee appointed by those favoring lynching went through the jail to satisfy the people the murderer was not there. At night a crowd of several hundred people surrounded the jail. They were orderly and drawn more by curiosity than any disposition to violence.

Morgan asserts he saw the Gaskin girl but once during the afternoon and then only for a moment. He says he can account for the blood stains on his clothes. He claims to have worked for Alexander Murray, a butcher at 1716 South Twentieth street last Saturday, and to have carried from a delivery wagon a quarter of beef into the shop.

A careful examination of Morgan's clothes discloses bloody fingerprints on his hat and blood stains on his shirt front. His handkerchief was completely saturated with blood.

TREATY NOT LIKED.
War Ships Should Be Built in Lake Cities.

Washington, Nov. 5.—The decision of the secretary of the navy, indorsed by the president, to build no war craft at lake ports, will result in a move being made before congress to abrogate that clause in the treaty of 1815 prohibiting such construction. The plea will be urged that the conditions which rendered such a provision necessary at the conclusion of the war of 1812 have long since passed away and that we should have a lake navy. The British ambassador has heard the rumblings of the approaching demonstration and is preparing to make a most vigorous protest against any modification of the treaty. The contention will be made that if the United States begins the creation of a navy for the great lakes England will have to do the same thing, and that the lakes will presently be patrolled by terrifying engines of war which will be a perpetual menace to the lake commerce. The proposition to take down the bars will also arouse a storm of protests from the transportation interests and it will be an easy thing to show that the United States will be the chief sufferer by any disturbance of existing relations. Canada has no important lake port, while we have a dozen or more, including Duluth, Milwaukee, Chicago, Detroit, Toledo, Cleveland and Buffalo, each and every one of which would be within range of British gunboats.

Bessemer Ore Will Go Up.

Ishpeming, Mich., Nov. 5.—As a result of the conference held last week in Cleveland between leading Lake Superior producers of Bessemer prices for next season's delivery on various grades will rule at least \$1 higher than at the opening of the present season. Non-Bessemer producers are not in the agreement, but will benefit by it. The various managers refuse to discuss the meeting, but there is good reason for predicting a rise of at least \$1 per ton and perhaps more, as there is certain to be great scarcity of Bessemer ore by spring.

Canada Will Appoint Commissioners.

Toronto, Ont., Nov. 5.—The members of the Canadian Deep Water Association are greatly pleased at the action of President Cleveland in appointing three commissioners to report upon the feasibility of a deep-water canal from the upper lakes to the Atlantic. Oliver Howland, president of the association, thought the Dominion government would at once appoint three commissioners. Two of the Canadian commissioners will probably be Howland and one of the government engineers.

Attempt to Lynch a Scoundrel.

Springfield, O., Nov. 5.—Under pretense of engaging her to perform household duties for his wife, William Penrose induced Miss Nettie White to accompany him on a lonely road near this city early yesterday morning. In a forest Penrose assaulted her. He was captured later at a Springfield street place. While at police headquarters and being conveyed to jail an angry mob pursued Penrose, and he was saved from lynching only by prompt and clever work on the part of city officials.

Rich Strike of Ore.

Colorado Springs, Colo., Nov. 5.—In the Airheart lease of the Anchora-Leland company's claims at Cripple Creek a sixth streak of bonanza ore has just been encountered at a depth of 232 feet. Select samples from a half-ton of the rich ore assays \$27,240.80 to the ton. Sylvanite abounds. The strike is one of the most marvelous yet made in the gold camp. Running along with this is another seven-inch streak that assays thirty-two ounces to the ton.

WORKMEN LOCKED OUT.

United States Leather Company Closes Its Factory for Sixty Days.

New York, Nov. 5.—The United States Leather company yesterday shut down the 100 tanneries under its control. Not another hide will be taken from its vats for sixty days. During the sixty days that the 100 tanneries are closed, more than 15,000 laborers, tanners, clerks, and employees generally, will be without work. The concerns shut up represent 90 per cent of the hemlock tanneries and 40 per cent of the union tanneries, the latter so called because they use a combination of hemlock and oak bark in tanning. Few of the strictly oak tanneries are included, as they are mostly out of the trust. Several of the rivals of the combination have recently been cutting prices, which is said to be the cause of the present curtailing of the latter's operations.

Club Men to Fight a Duel.

Washington, Nov. 5.—The Metropolitan Club is in a fever of excitement. A real duel is to be fought between two of its most conspicuous members. Bob Neville is one of the principals. Prince Iturbide, the pretended heir to the throne of Mexico, is the other.

The trouble arose over a dispute in regard to the horsemanship of the two principals. In the course of the argument Iturbide called Neville a "liar and a horse thief." The next morning Neville sent a challenge. The duel will take place in a few days, just where, no one knows.

Corbett Makes a Statement.

Memphis, Tenn., Nov. 5.—James J. Corbett left last night for New York. He says he will pay no more attention to Fitzsimmons, and is contemplating a final retirement from the ring. Corbett has in his possession a letter from Superintendent Rose of the Iron Mountain Railroad to General Passenger Agent Townsend, in which the statement is made that the railroad people could easily have gotten Fitzsimmons into Hot Springs if Fitzsimmons had not insisted on running into the arms of Gov. Clarke's officers.

May Accept the Katahdin.

Washington, Nov. 5.—The indications are that the ram Katahdin will not be rejected, notwithstanding its failure to accomplish all that was required of it in the matter of speed. As the law under which the Katahdin was built imposed no requirement of speed, and the only stipulation on that point is contained in the contract, it is probable that Secretary Herbert may decide in view of the fact that there was no bid in competition with that of the Bath Iron works to arrange for the acceptance of the vessel with perhaps a slight reduction from the contract price.

Comment on Nicaragua Canal.

London, Nov. 5.—Commenting upon the Nicaragua canal, the Chronicle says: "In the face of the present feeling in America over Venezuela and Monroism there is not much inducement for a British partnership. Still, a congressional guarantee is not everything, and undoubtedly our money will be needed, and with France deeply involved at Panama we stand, in relation to the Nicaragua enterprise, in a stronger position than we did when De Lesseps commenced the Suez Canal works."

Brutality of Turkish Soldiers.

London, Nov. 5.—A dispatch to the Daily Telegraph from Vienna says that highly respectable European eye-witnesses write horrible descriptions of the Trebizond massacres. Feet, hands, ears, eyes and tongues were severed, it is said, before the Armenians were finally dispatched.

The Athenian journals affirm that the sultan has appealed for the protection of the English fleet against the machinations of the young Turks.

He saved his corn the past season with about five dollars' worth of tar, by plowing a furrow around the field and pouring a little tar on top of the same, keeping it fresh. He says he would have had no corn had it not been for the coal tar. Halloween celebration was not forgotten in this place by the looks of Main and other streets the next morning. Kittie Rose is spending the week with her sister, Mrs. T. V. Rogers at Whitewater. Quite a number of this place attended the A. P. A. lecture at Milton Junction Saturday evening. The friends of Daisy Vincent gave her a surprise party last Wednesday evening. A silver nut cracker and picks and a napkin ring were presented to her and a good time was had by all. Nearly thirty were present. Lona Balch visited relatives at Edgerton one day last week. The time for the Christian Endeavor services at this place has been changed from 7:45 p. m. to 7:15. Roy Vincent visited his aunt, Mrs. Charley Grey at Milton Junction one day last week. Gerlie Corliss invited several of her friends to spend the afternoon with her last Thursday to help celebrate her birthday. A nice supper was served and a pleasant time was had by all.

JANESVILLE ROWDIES AT MILTON

Halloween Fun Was of the Kind That Breeds Trouble—Other News.

Milton, November 5.—Halloween was made hideous as usual and the home talent, so far as we are informed, confined themselves to the removal of horse blocks, gates, wagons, and other loose property. A load of hoodlums from Janesville came up here and tore up sidewalks, broke down a guide board, overturned some small outbuildings and destroyed a gate for William Cole. Their presence was not needed here and if evidence can be secured to convict them, it should be done. Wanton destruction of property must be stopped. E. Richardson spent Saturday and Sunday at home. Car load shipments from this station last week including two cars live hogs, one car cats, one car barley and two cars of tobacco. Saunders received three cars of lumber and one of cement. Saturday and Sunday were reg-

GOLF IS BECOMING POPULAR.
New Game Likely to Become a Regular Janesville Sport.

The few golf games that have taken place on the Galbraith farm, seemed to have impressed Janesville players very favorably and an effort is now being made to organize a club, and secure the Mole property for a "golf link." Superintendent Proudfoot has purchased an entire outfit consisting of five golf drivers and cleeks and balls. The "sticks" were purchased for C. C. MacLean, W. R. Proudfoot, P. J. Mout, C. P. McLean and J. P. Baker, who will make an effort to show Janesville people what the coming game really is.

HOW TO CURE THE HOG CHOLERA

State Veterinarian J. L. Scott Tells of the Remedies to Use.

A Rock county farmer who wrote to State Veterinarian J. L. Scott of Beaver Dam asking him how to cure the hog cholera received the following answer:

DEAR SIR:—I have been away all the week, so I now take the first opportunity to answer yours of the 18th. You have the hog cholera at your place; the only way to stamp it out is to kill and bury them the moment you see them thus afflicted; burn and use sulphur and carbolic acid freely, and also give a tablespoon of sulphur and fifteen drops of carbolic acid to every pall of swill. Respectfully yours,

DR. J. L. SCOTT.

There is always something that a boy wants coming on cold weather, and you can't blame them for wanting a new reser jacket instead of a long overcoat that is always in the way while playing and if you see the immense line that we are showing this week and the special prices we are making on them you will buy one. Frank H. Baack.

HOW NAPOLEON LOST

The True and Real Secret Of His Downfall.

Lack Of Reinforcements Changed Destinies Of Nations.

Battles Lost In Our Own War In the Same Way.

Reinforcement Of Both Power and Strength.

The Great and Vital Need Always Present.

Napoleon looked in vain for his general when the tide at Waterloo was at its height. He did not come and that great conqueror lost the field; France was checked; the fate of Europe was changed and the tide of human history found a new direction.

So in the long, fierce war of the rebellion, many a field was lost or won as needed reinforcements came or failed to come.

So it is in the natural world:—the shower grateful to the peaceful earth, the wild that cools or warms in the right time, all keep nature fresh and beautiful. In the realm of health the same law prevails. There are parching drouths and destructive floods to be provided and guarded against; and when they come, they have to be robbed, as far as possible of their effects.

Prevention in all these cases is better than cure.

Save the battle in advance.

Provide the relief before it is needed.

It is less expensive and far more beneficial from every view.

Reinforce nature. Help her to keep normal and healthy.

Take care of the blood and nerves, and we shall have no fear of disease.

Dr. Greene's Nervura blood and nerve remedy has stood the test of many years for this purpose. It has no rival as a wonderful restorative. It has no equal in the purification of the blood, the strengthening of the nerves and for preventing all the ills which threaten at this season of the year.

Try it and be assured. It is the great reinforcement for strength, power and vigor of nerve, brain and body. It will make you well and strong.

Why waste time in trying uncertain and untried remedies, when here is a physician's prescription, a discovery made by the greatest living specialist in curing nervous and chronic diseases, Dr. Greene, of 35 West 14th street, New York city. If you take this medicine you can consider yourself under Dr. Greene's direct, professional care and you can consult him to write to him about your case freely and without charge. This is a guarantee that his medicine will cure, possessed by no other medicine in the world.

Not Selfish

MRS. ASH'S SINGING WAS A REVELATION

JANESVILLE WOMAN'S WORK PLEASED HER FRIENDS.

She Took the Part of "Serena" In "Said Pasha" With the Columbia Opera Company Last Evening at the Myers Grand—"Blind Boone's" Concert Was Good.

It was a Janesville woman's voice that filled the Myers Grand with melody last night, when the Columbia Opera company presented "Said Pasha" to a local audience.

Mrs. Ada Holdredge-Ash was the prima donna and she was given an enthusiastic reception by her many friends. "Alice Beauvett" is her

MRS. ADA ASH AS "SERENA."

stage name, and her work was a revelation to those who had never seen her before the footlights.

Beside an excellent voice, she has unusual histrionic ability and the audience enjoyed her work very much. She took the part of "Serena" and the well balanced company gave her excellent support. Mrs. Ash is not with the company this season and her appearance last evening was for this occasion only. Each of her solos were encored and she was given a handsome bouquet.

Maurice Hageman and John Calhoun were the comedians of the company and their work was excellent. The singing of Miss Florence Wolcott was also a feature of the evening.

"BLIND BOONE" IS A WONDER.

Excellent Concert Given By the Sightless Colored Musician Last Night.

"Blind Boone," the colored wonder, gave an excellent concert at the Congregational church last evening, and a large audience listened to the varied program. Boone is really a musical phenomenon, and his abilities cover a wide range. He gave several of his own compositions as well as those of noted composers, and was equally at home whether rendering imitations of other instruments, or the difficult compositions of Chopin, Gottschalk, or Liszt. The vocal part of the program was rendered by Miss Stella May, who won an encore each time.

We have added a large line of ladies' embroidered Swiss handkerchiefs. Sell at 8, 10, 15, 25 and 35 cents each. Very cheap for the quality. Lowell's Annex.

MUCH ROUTINE WORK
DONE BY ALDERMENBUSY SESSION OF THE COUNCIL
LAST EVENING.

Commissioner Watson Directed To Build New Walks and Repair Old Ones According to Law—The Joyce Judgment Ordered Paid—Many Orders Adopted.

Considerable routine business was transacted by the common council at the regular meeting held last night, although little that was new was developed. All the aldermen were present but Alderman Smith, and after the reading of the minutes had been dispensed with, the report of the municipal court was received, referred to the judiciary committee, and subsequently reported back as correct. The report of the treasurer was also received and referred to the finance committee.

The F. C. Austin Co., the manufacturers of the stone crusher, served notice on the city that they had assigned the account against the city for the crusher, to C. L. Graham, which communication was received and filed. O. T. Wilcox presented an affidavit that he had been notified to cut the noxious weeds on his property at any time during the year 1895, which communication was also received and filed.

The clerk and mayor were instructed to sign the assessment roll for the grade on Fourth and Fifth avenues, and place the same in the hands of the treasurer for collection. Bills Ordered Paid.

A number of bills were ordered paid on the report of Chairman Hedges of the finance committee.

On the motion of Alderman McLean, the fire and water committee were instructed to make necessary repairs on the roof of the city building, the chief engineer was requested not to use the fire hydrants during the winter except for fire purposes as the water company had been obliged to put a number of hydrants in repair that had been used for other purposes.

Captain Griffith was denied permission to take his steamboat out of the river at Fifth street, Alderman Hemming stating that it would obstruct the entrance to some of the barns in the neighborhood.

Street Commissioner Watson reported that over three hundred sidewalks in the city were out of repair, and that the repairs on about one hundred of them would exceed five dollars each. He stated that he had been impartial in his work, and had treated all alike. His report was adopted.

Orders were then adopted as follows, after which the council adjourned. By Alderman Kothman—To repair River street between Pleasant and School streets; also put in a tile culvert across Holmes street on the west side of Locust street.

Joyce Judgment Paid.
By Alderman Hemming—That the clerk draw an order payable from the judgment fund in the sum of \$1,200 to pay the Joyce judgment.

By Alderman Winslow—To repair the walk at the corner of Forest Park boulevard and Logan avenue, and from Forest Park boulevard west to Jackson street, put in a block crossing across Garfield avenue east side of Oakland avenue and notify the owner of lot 2, Winslow's subdivision city of Janesville, to move the sidewalk to correspond with the walks in said block within twenty days; or the street commissioner will move the same and charge to the owner of the lot.

By Alderman Hedges—Instructing the street commissioner to serve legal notice upon the owners of all lots referred to in his report to build new sidewalks where new sidewalks are needed, and to repair sidewalks in all instances where repairs are sufficient.

By Alderman Hemming—An order to pay Contractor Crossman the balance due him for laying the walk about the new High school lot.

Changes of Climate
Kill more people than is generally known. Particularly is this the case in instances where the constitution is delicate, and among our immigrant population seeking new homes in those portions of the West where malarial and typhoid fevers prevail at certain seasons of the year. The best preventative for a change of climate, or of diet and water which that change necessitates, is Hostetter's Stomach Bitters, which not only fortifies the system against malaria, a variable temperature damp, and the debilitating effects of tropical heat, but is also the leading remedy for constipation, dyspepsia, liver complaint, bodily troubles specially apt to attack emigrants and visitors to regions near the equator, marines and tourists. Whether used as a safeguard by sea voyagers, travelers by land, miners, or of agriculturists in newly populated districts, this fine specific has elicited the most favorable testimony.

Campos Will Rush the Campaign.

Madrid, Nov. 5.—The Herald publishes an interview its correspondent in Cuba has had with Capt.-Gen. He added that he proposed to pursue the campaign vigorously and that no proposal for peace had been addressed to him by the insurgents.

It is not often that our theatre-goers have the opportunity of witnessing so funny and cleverly constructed a play as this. Its essential quality to please consists in its well conceived and clearly defined characters, who are studies from real life, and their presentation lies in the hands of artists well fitted to portray them. The author has succeeded in painting a picture of human interest, and no one can witness it without paying the tribute of laughter.

THE SHIRT MY FATHER WORE.

[From the Chronicle.]

My father bought an undershirt of bright and flaming red—"All-wool," I'm ready to assert, "Fleece dyed," the merchant said. "Your size is thirty-eight, I think, and forty you should get. Since all wool goods are bound to shrink a trifle when they're wet."

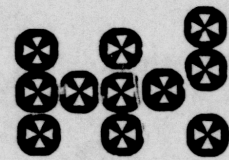

That shirt two weeks my father wore—Two washings, that was all—From forty down to thirty-four. It shrank like red-hot iron. I wore it then a day or two, But when 'twas washed again My wife said: "Now 'twill only do For little brother Ben."

A fortnight Ben squeezed into it, At last he said it hurt—We put it on our babe—the fit Was good as any shirt We never will wash it more while yet We see its flickering light, For if again that shirt is wet 'Twill vanish from our sight.

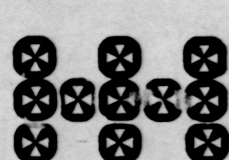

We are agents for the JAROS. Cannot shrink. Fits like a glove. You can get along without an overcoat. You can get well without Jaros Hygienic Underwear but it isn't so easy.

LEAF TRADE ACTIVE AND OUTLOOK GOOD

MARKET BEGINS TO TAKE ON NEW LIFE.

The Dealers Are Beginning to Ride and Buy Occasional Crops While Prospects Are Very Bright—The Transactions Reported—Some Local Leaf Notes.

Janesville tobacco market is beginning to resume a very respectable degree of activity as compared with the past several months. Eastern dealers are beginning to visit us and pick up job lots. Local dealers are riding about looking for bargains and picking up a goodly amount of the weed. Retailers are getting more numerous calls for samples and there is a general air of business, prevailing somewhat of the conditions prevailing before the late financial unpleasantness. Hope bobs smilingly, The Leaf says, and paints the future in fascinating colors.

The Transactions Reported.

Among the transactions reported are: 130 cases of '92, '93 and '94 sold by A. N. Jones; 86 cases '92 sold and 34 cases bought by S. B. Heddles; 100 cases '94 bought by J. M. Thayer; 50 cases '93 bought by F. S. Baines and 18 cases '94 and 23 cases '92 sold by G. H. Rumrill. Soverhill & Porter sold 102 cases '92.

Soverhill & Porter have purchased several crops of the farmers and L. B. Carle has purchased liberally of the '93 and '94 goods of the farmers. The retail goods still continues fairly good and all in all the volume of business has materially increased.

Will Not Ride Now

Charles Lawrence sold 22 cases of '94 for 5 1/2 and 1 cents. Peter Foss sold 12 cases of '94 at 4, 3 and 1 cents. Thomas McCann sold his '95 at 6 cents in the bundle. Soverhill & Porter, of this city, have purchased a few crops of '95 at prices from 5 to 6 cents in the bundle, and C. L. Calton of Edgerton, has been buying north of this city and Henry Miller and Soverhill and Porter have picked up a few crops near Orfordville. Many of the packers will not ride for '95 until they can inspect the crop, the very dry condition of the tobacco preventing this at present.

A large amount of '93 and '94 has been picked up and an occasional crop of '95 is purchased.

Good Trade at Edgerton.

The Edgerton Reporter also takes an encouraging view of the situation. It says: The buying of the new crop has been progressing extensively during the week in sections where the most desirable crops are located. The tobacco section of the state has now been pretty thoroughly covered in the hunt after the new leaf, a number of fresh buyers having joined in the list of operators. The bulk of the purchases have been made at a price not to exceed 6 cents in the bundle for wrapper and binder goods, though a few sales are reported at 8 cents. Old leaf in all grades is now moving in larger quantities than for several months past, but prices show but little improvement over the former quotations except for the remnant of the '92 crop.

Local Tobacco Notes.

JOSEPH GRUNDY is home from a trip among the cigar manufacturers of Milwaukee and Chicago. Business has not changed much in those cities.

W. S. BRILL, buyer for Kerbs, Worthen, Schiffer, of New York, visited this week and other local markets this week.

J. L. & M. F. GREENE shipped a car of '92 from Milton and other from Edgerton this week.

SOVERHILL & PORTER shipped two cars of tobacco from Milton this week.

THIS IS A GOOD TOWN FOR STREET CARS

LINE IS GETTING ALONG FAIRLY WELL.

The Receipts Are Above the Average For Cities of This Size, Even If the Hard Times Have Caused a Decline in the Number Of Passengers.

Although the month of October has not been a good one for the Street Railway Company, the management does not worry (on that account, as the Janesville road is making a better showing than the average in cities of Janesville's size, the country over, while many of the lines in much larger cities are in the hands of receivers. The banner year since the line was put in was 1892, and the figures showing the number of passengers for the month of October since that year are as follows:

| | |
|--------------------|--------|
| October, 1892..... | 23,200 |
| October, 1893..... | 19,260 |
| October, 1894..... | 18,306 |
| October, 1895..... | 17,831 |

"These figures show the number of passengers who have paid their fares," said Superintendent Proudfoot. "The dropping off is due, I think, wholly to the hard times, and in my opinion, the bicycle had very little to do with it. The fact of the matter is, the people do not have the money to spend."

Superintendent Proudfoot also says that he thinks the company will run the cars all winter this year snow or no snow.

A general attendance of business men is desired. W. T. VANKIRK, Pres.

TO DROP THE CASE AGAINST GOULDING

RUMOR SAYS HE WILL BE SET FREE.

Case Against Him Has Not Been Considered a Strong One—Is Still in Jail—Robbers Caught at C. S. Jackman's Not Yet Run Down—Other Police Notes.

It was said about town today that the case against Harry Goulding, who is charged with attempting to kill the Van Etta and Vincent families by turning on the gas in the house, will be settled when it comes into court tomorrow, and that Goulding will be discharged. Whether or not this is true, is not known but the case against him is said to be but a weak one, and depending entirely on circumstantial evidence. Goulding is still in jail, as he was unable to get the bail required.

Chief Acheson and Officer Hogan have searched the town from end to end, but have found no trace of the bold thieves who worked at the home of C. S. Jackman. They think the men lost no time in catching a freight train out of town, as they were professionals, and realized what being captured meant.

Officer Hogan arrested a drunk last night, but did not take him into court today, as Judge Phelps was out of town.

PATRIOTIC BLOOD.

Your Blood Is Red, White and Blue.

The Three Colors in Your Blood, and What the Kidneys Have to Do With The Healthy and Unhealthy Blood—Sickness Caused by Blood that Has Not Been Filtered.

How It Can Be Cured By Curing the Kidneys.

You have three colors in your blood.

The red comes first. It is the best blood.

The clear, rich blood that flows through your arteries from your heart all over your body, is what keeps you alive.

It gives food, heat and strength to your body.

It is your kidneys which makes the blood pure and red.

Your white blood is not too healthy.

It runs through the same blood vessels as your red blood. You need a little of it, but too much will make you sick.

Pale, sickly, bloodless complexion, anemia loss of weight, lack of energy and ambition, all these are caused by too much white, which means too little red blood.

When this happens it is because your kidneys are filtering out red blood and leaving the white when they should be doing the opposite.

The blue blood is generally supposed to belong to the aristocracy, and it does, for it certainly is "refined."

The blue blood vessels you see through your skin are veins. The blood in them is of a dark blue-red color. It contains all the effete and worn-out matter it has been able to collect. It is on its way to your kidneys to be purified.

Your kidneys will filter your blue blood and make it red and clean.

It would not be patriotic not to have this done. You would soon have nothing but blue and white blood.

It would not be healthy, either.

If your blood were not properly filtered your blue blood would carry poison to all parts of your body, and you would soon begin to suffer from all sorts of diseases.

So that it is good policy to keep your kidneys healthy.

Dr. Hobb's Sparagus Kidney Pills will do it.

Bright's disease, congestion of the kidneys, nephritis, pain in the back, sleeplessness, and all other kidney troubles can be immediately relieved and finally cured by Dr. Hobb's Sparagus Kidney Pills.

Rheumatism, gout, pains and aches, neuralgia, anaemia, pale and sallow complexion, chlorosis, or green sickness, depression of spirits, lack of ambition, general weakness, dizziness etc., and all other blood diseases can be relieved and cured by Dr. Hobb's Sparagus Kidney Pills.

If the kidneys are to filter your blood they must be kept well. There is nothing to make them well that does it so well as Dr. Hobb's Sparagus Kidney Pills.

But all the medicine in the world cannot keep them well if you give them too much to do.

Dr. Hobb's Sparagus Kidney Pills are sold by all druggists or mailed for 50 cents per box.

Valuable pamphlet, "A Filter for Your Blood" mailed free on request. Hobb's Medicine Co., Chicago or San Francisco.

GAIL HAMILTON'S ILLNESS.

Her Great Peace When Lying, as She Thought, at Death's Door.

From the Boston Herald: A paper written by Miss Abigail Dodge (Gail Hamilton) was read in the church in Hamilton last Sunday evening. It was entitled "In the Valley of the Shadow of Death." Miss Dodge refuses to give the manuscript of the paper, but a short sketch of what was said has been obtained. She tells in the paper of reading her own obituaries. Passing on to her own experiences she said that she was taken ill last Spring, while locked in a room in the Blaine mansion at Washington. She felt that she was failing, and realized that something very serious had seized her. Her most intense feeling was the shock that her friends would receive when they broke open the door and found her dead upon the floor.

She felt that the shock would be lessened to them if they should find her lying in a natural position upon the sofa, and so she made a mighty effort with her fast-ebbing strength to cross the room to the sofa. She reached it, but stumbled and fell beside it.

She realized the situation when her friends found her and could hear them as they spoke about her, although apparently she was unconscious. Then came a long blank that lasted how long she knew not. At times she would partially recover consciousness and wonder whether she were dead or not. Her brothers, Stanwood and Brown Dodge, both of whom are dead, dying less than a year ago, appeared to her and conversed with naturalness. She sometimes felt that she would like to speak and inquire if she were really in the other world, but found it impossible to enunciate syllables.

She decided to impress upon those who heard the paper read the truth of the sentence, "Blessed are they who die in the Lord," for death, she said, "is indeed a blessed thing." She felt no especial sorrow in leaving life and laying down its burdens, but she had a poignant sympathy for her relatives and friends who she knew would mourn long and deeply at her death. "Do not

have a horror of death," was her thought; "it is a blessed thing."

Much interest has been taken in the paper since Sunday, and the audience that listened to its reading was rather a limited one. The whole thing was a complete surprise to every one but the minister, Mr. Nichols.

PAY FARES IN PENNIES.

Peculiar Habit that Women in the Quaker City Have.

Four women boarded a Ridge avenue car together yesterday afternoon and paid their fares with twenty pennies. The conductor groaned audibly as he rang the register and returned to the rear platform. "Do you know," he said to the man who preferred to stand outside with the butt end of a cigar in his mouth, rather than to sit comfortably inside, "that a majority of women pay their carfare in pennies? They seem to make it a point to dispose of their odd coppers on the street cars. Of course, the conductors can't kick, but we have got to pass them off on somebody else, for the company won't accept pennies in receiving our cash returns. We try to pass them back to women, if we can, and if that is not possible we give them in change to the men who ride. They don't like the pennies any better than we do, so there's a general kick all around, and—Green street? Yes, that's it, madam. Wait until the car stops, please, don't jump off backward. Look out for the car on the other track!" He rang for the car to proceed, and to satisfy the curiosity of the man with the cigar stump counted 558 pennies that he had collected on the trip down and up.

Musical Mice.

A correspondent of the London Graphic writes: Some few years since there was at Coley Hall, near Halifax, a singing mouse, which lived for several years in a hole near the fireplace in one of the rooms, and became very tame. Mr. A. G. Sunderland not allowing it to be disturbed. Many people came to hear its so-called singing. This mouse appeared perfectly fat and healthy, and met its end accidentally.

Another correspondent says: With reference to singing mice, I may say that I caught one last year and kept it for some weeks in a cage. That they do not sing for pleasure, as a bird does, is evident from the fact that it sang even when frightened, and the singing was evidently due to some difficulty in breathing, which, however, appeared to cause it no great inconvenience, as it fed well and was in fair condition when caught. The "singing" soon became monotonous, and I therefore restored the mouse to his sorrowing relatives.

An Old-Age Pointer.

Atchison Globe: Old people never pretend to stay in bed all night. They get up fully a half dozen times and go wandering around with lights in their hands, looking for the origin of noises, to see what time it is, and on a half-dozen other pretexts. If you feel like wandering around the house at night with your night clothes flapping around your knees, it is an indication you are not as young as you used to be.

The Question of Perpetual motion has been solved by a Populist genius:

Rags make paper.
Paper makes money.
Money makes banks.
Banks make loans.
Loans make poverty.
Poverty makes rags.
Rags make—well, you stop here and commence over again and keep on going until the cows come home.

Nice Gruel.

A missionary's wife, Mrs. Paton, had been very ill on a lonely island in the Pacific, and when she recovered sufficiently to write to her friends at home she thus described one of her experiences:

When I was able to take an intelligent view of my surroundings this is what I first remember seeing:

John (her husband), sitting by my bedside, with an old straw hat on the back of his head, and a huge tin basin between his knees half full of what tasted like very thin, sweet porridge, with which he was feeding me lovingly out of the cook's long iron spoon!

He assured me that it was water-gruel; that he had got into the way of making it nicely now; but that he could not find a clean dish on the premises to put it in!

He was so proud of his cooking that I asked for the recipe, and you have it here: Equal parts of meal, sugar and water—a cupful of each for one dose; boil all together till there is a smell of singeing, whereby you know it is sufficiently cooked.

A business man is not the most patient creature in the world. He cannot wait to hear any long-drawn-out story of the cause of his ailment. He doesn't care two straws about a fine spun theory of how he should treat himself. He may be predisposed to scrofula, or consumption.

"That," he will tell you "has nothing to do with the case."

He wants to be well. If he can be cured, write out a prescription and send in your bill.

So, here's the first part of the proposition. Dr. Pierce's Golden Medical Discovery is a microbe hunter and killer. Many persons of scrofulous blood, encourage the breaking out of unsightly sores, to prevent the disease going to the lungs. There is no need of this state of dread and discomfort. Purify the blood. It can be done. "Golden Medical Discovery" will cure 98 per cent. of all consumptive cases, also of all other lingering, bronchial, throat and lung diseases. Sold by all medicine dealers.

BROWN BROTHERS & LINCOLN.

AFTER A YEAR.

The slender lilies nod their heads
On either side the garden way,
And all along the flower beds
Tall foxgloves stand in fair array.
The thistles, in the pear tree near,
Still carole, as when first we came,
The same old song he sang last year,
And we, we are no more the same.

How strong the lilies smell! How neat
The crimson rosebuds, row on row!
It's still the scene that seemed so sweet
A year ago—a year ago.
We noticed how that apple bough
Stood out so green against the sky.
It's just as fair as ever now,
But we are altered, you and I.

The days have come between us two
And moved us ever more apart,
We cannot, as we used to do,
Tell to each other all our heart,
Only a year since last we met,
But in that year what things have been!
We walk, we talk together, yet
We cannot bridge the gulf between.

All looks unchanged save us alone,
We've drifted into other ways,
Time turns the page, the past is gone,
And naught restores the vanished days.
The flying hours now scenes reveal.
We never fancied, you and I,
They would come when we should feel
No longer sad to say goodbye.
—Longman's Magazine.

SEPARATION.

"It is usual, I believe," he said, "before dissolving partnership to take accounts. Let us see what we each brought into the firm."

"You begin," she answered.
"I brought fair ability, energy, ambition, a decent position, means of comfortable life, an unblemished name. Every one said I wasn't a bad sort," and, more than all, I brought deep, true, passionate love."

Said the woman, "I brought beauty"—her statement was splendidly true—"youth, physical purity—to which you do not lay claim." He bowed. "Perhaps little else, for it was generous of you to marry the daughter of an undischarged bankrupt."

"What have we got out of our marriage?" continued the husband. "Let me speak. Of course the honeymoon was a failure. Poets and novelists"—he spoke bitterly—"tell wicked, ridiculous lies about honeymoons. They never are wholly happy, unless, perhaps, when it's the wife's second honeymoon. After that three months' exquisite, almost mad joy, then four months of happiness, followed by three of contentment, ending in a year of gradually increasing misery."

"Of course the honeymoon was a failure," she answered. "The next three months were happy, the following four not bad, the subsequent three indifferent, and the year was intolerable. You got more out of the business than I, for you put more in. Alas, I had not the beautiful mad love's capital, and yet"—"And yet," interrupted the man, misunderstanding, "you have wasted that capital, and the beautiful mad love has gone, and I, who once would have died for you—more than that, would have lived disgracefully for you. I do not believe in the 'loved I not honor more'—am content to dissolve partnership, willing that we should part as friends."

"Content? Willing?" she asked.

"Tell me, what do you regret most?"

"I regret my bankruptcy," he said.

"I began our partnership with what I thought a splendid, inexhaustible fund of love. I look back to moments of happiness beyond description, and now I am insolvent in love. After all, I believe," he continued, with a pleasant, manly smile, "I believe that it is 'better to have loved and lost,' even if it be the love and not the sweetheart that one has lost. Do you regret nothing? What clings in your mind?"

She shook her head.

"Come, you should tell me. There, on the table near you, is the deed of dissolution, the separation deed—it hasn't even been engrossed on parchment, but is printed on paper. At the end are two seals. We execute the dissolution deed by putting our fingers on the seals. The partnership was executed with our lips. In a quarter of an hour Mr. Hawkins, the lawyer, will be here to witness the execution. Tell me."

She shook her head again—her splendid head, regular in feature, delightful in complexion, crowned with gorgeous auburn hair, illumined by deep, large, violet eyes.

"You regret nothing?"

With a sigh she answered: "I regret that you have cast your pearls before me. I regret that I have misprized and lost your love; that I gave you little in return. I regret that my very inability to return your love truly has irritated me by making me feel your debt; that feeling of irritation has helped to make you miserable and me miserable too."

"I did not use the word regret quite in that sense," he answered. "I meant, is there nothing that you look back to of happiness that yet lives in your memory?"

She put down the fan that had fluttered in her tender hands, and with half a smile, half a blush, answered, "There was one thing, one moment, that I regret."

He rose and walked up and down the room, the daintily furnished room, everything in which was a note in a dead love song.

"A year ago, almost to the day, certainly to tomorrow, we were at Etaples, you recollect?"

"It was for economy I went, because it was ridiculously cheap and very pretty, and I hated Boulogne."

"I remember how we wandered about; how, alas, we quarreled in the lovely pine woods, or, to be true, I quarreled, and you suffered, and the splendid seashore, where I said bitter things because my friends were at Trouville and I at the quiet Paris Plage, and you were sad and silent."

"My dear," he interrupted, "I was greatly to blame."

"Hush! You must not interrupt. Then one day we took a boat—a clumsy boat—and sailed out, despite the warnings of the fishermen. I didn't care, you didn't care—what happened. We had

quarreled, or, rather, I, at lunch, said harsh things."

"My dear," he interrupted, "there were faults on both sides. They rendered life intolerable and love impossible, but"—

"Hush! We rowed out. You had the sculls and I steered—at least I lay in the stern and splashed the waves with my hands—the hands you used to kiss so often."

She paused and looked at the hands—firm, plump and white and decked with lovely rings of curious workmanship. He, too, looked at them and sighed. She sighed.

"But out we went. Then the skies became dark, the water darkened, too, and grew rough, and you tried to turn. We were far, far away from shore. You must have been looking at me instead of the land, or you would have seen that we were floating fast in a current. With an effort you brought the boat round and pulled for safety. Oh, you looked splendid! Your thin jersey showed the lines of your strong, supple body, the muscles of your arms and chest rose superbly, and your manly face, flushed and firm, fascinated me."

The man smiled, half scornfully.

"You pulled hard, and I don't think I was frightened. I didn't care what happened. Then the rotten oak cracked, and you bound it round with our handkerchiefs, but it still was weak, so you tore off a long strip of my petticoat to bind it with, and we drifted, drifted out. When at last you tried again, it snapped, and the blade fell into the sea. Then you came to me, to the stern, and took the tiller from my hands. You put your arm round my waist and said, 'Don't be afraid, dear wife!' I knew we were drifting out to open sea, storm and death and was aware that you knew it. 'Don't be afraid, little wife,' you said, and suddenly put your arm round my neck."

"I remember."

"Yes, I know. Let me go on. You brought my face to yours and laid your lips on mine. Oh, that kiss—that kiss! It still stings on my lips. In it I felt the depth of your love. I felt that I loved you—felt that we were man and wife, and the only beings alive on land or sea. That kiss is what I regret—that kiss, the one moment of rapture in my life."

She paused.

"I remember."

"Why did that foolish steamer save us? I could have died there, happy in your arms—quite happy."

"Quite happy?"

"Yes, quite. To think that we quarreled within a week—at least I did—and things went worse than ever afterward! What are we women made of? The old song is wrong—we are made of gall and wormwood and marble. To think that we are here, and that paper lies there! You've acted very handsomely, allowing me more than half your income and letting me keep the flat."

"Do you think I could live in it after you have gone?" he answered, with a break in his voice. "There's nothing in it that does not speak of you. It's a graveyard of memories."

She looked at him over the fan and saw tears in his eyes. Then she rose and walked across the room.

"Herbert," she said in a timid voice, after a long pause, "it is 4 o'clock. He'll be here in five minutes to see the deed executed."

The man bowed his head and hid his face in his hands.

She took out her handkerchief, a ridiculous bit of lace and lawn, and touched her eyes.

"Herbert, tomorrow is just a year after that day. The night train starts at 8 o'clock. If we went to Etaples, we might find—might find—that kiss again."

He jumped up, tears in his eyes and a smile on his lips. "You mean to say"—He caught her in his arms and pressed his lips long and passionately on her mouth.

"I don't think we really need go to Etaples," she said, with a smile, after a long pause, "but it will be a pleasant little—little honeymoon."

He rang the bell, told the servant to tell Mr. Hawkins that no one was at home, and she bade the girl pack her things instantly. When the girl left the room, they both took hold of the deed and slowly, gravely tore it into two pieces.

"It is a new way," he observed, "of executing deeds of separation."—Sketch.

NO CONSUMPTIVE WILL DIE

SO LONG AS HE CAN DIGEST AND ASSIMILATE FOOD.

All physicians admit this. Yet here the difficulty begins. How can we build up the consumptive's body as fast as the disease tears it down? Let us consider.

Cough mixtures must be avoided because they frequently contain opiates which arrest the digestion. Their only effect on the cough is by stupefying the nerves. Let them alone.

All foods that are hard to digest must be avoided, especially fats and oils. Only those foods that are easily digested and assimilated should be eaten. Foods not thus accepted by Nature do no good; they do harm. Not what is merely eaten but what is digested and assimilated gives flesh and strength.

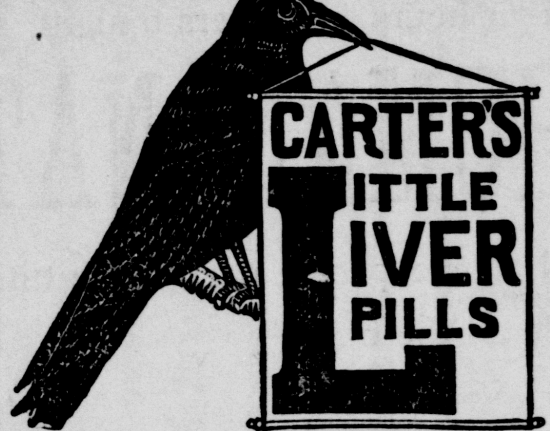

Consumption is starvation, slow or rapid, as may be. The first symptom is, not necessarily a cough, but a tendency to lose flesh, to grow thin. Stop this tendency now. Don't wait for obvious lung trouble. That's only a later development—only a minor point.

Stop the wasting and you master the disease, even though it may have made some slight inroads already. Increase the flesh and the danger is past.

What is needed is an especially prepared food—a nutriment in itself and a digester of other foods.

Such an article is the Shaker Digestive Cordial, made by the Shaker Community, of Mt. Lebanon, N. Y. It creates a natural appetite and insures the digestion of what is eaten with it. It overcomes the wasting which is fatal in the consumptive process.

A man may lose money and not die a bankrupt. One may have consumption and not die of it. This is science and sense. The success of this new remedy proves it.

You Take No Chances...

Neither do you run against a lottery in buying Dry Goods at this store. The month of October shows the record of a great business month,—a thirty days in which was concentrated the largest business ever done by this store during any corresponding month in past years. Popular prices upon popular goods is a combination strong enough in itself to neither require a game of guess nor the uncertain elements of a lottery to push it along. Some merchants bid for patronage one way, some another; one man gives you your chromo and the next one the frame, both, by the way, gems (?) of the first water. To the shrewd trader such wiles are a snare and a delusion, and the economical woman buys her goods where she knows she can do the best. (There are hundreds of them who know that this statement applies particularly to this store.)

Cloaks just now make about the liveliest selling you can imagine; such taking styles; at prices likewise.

JANESVILLE, WIS., Nov. 4—The weather forecast for the next twenty-four hours is showers tonight, and Wednesday much colder.

IT WAS A KEEN JUDGE OF HUMAN NATURE WHO ONCE SAID:

"You can fool some of the people all the time and all the people part of the time; but you can't fool all the people all the time."

A few people are fooled with cheap Clothing from choice, others because they are misled by misrepresentation, but the great majority of people look for themselves. It is not strange that people get fooled while the atmosphere is so heavily charged with exaggeration. It is well to remember, however, when you read clothing advertisements, who the honest advertisers are. We labor to make our advertisements plain, strong as the facts demand, but never over-stated. We are simply telling the plain, unvarnished truth when we state our
